T-19 Work Plan – 2017

- In February we produced a work plan from the work done in the 20-07.
- This initiative in SCOBS will be known as “BIM for Bridges and Structures”
- Resolved to introduce a Pooled fund to resource the effort
- Developed a Stewardship Model

Task 2 – Stewardship Model 5: Hybrid Stewardship Model- REVISED (2/28/2017) BIM for bridges and structure

BIM Expert Software Panel

- We asked you the following questions:
 - Summarize your level of compliance with IFC, both import and export
 - What level of detail do you have in your models?
 - Where do you see your future in the BIM for Bridges and Structures realm?
 - What challenges do you see?

Let's Proceed with the Discussion!
